

**ADVITECH ANNOUNCES A \$ 515 800 PRIVATE PLACEMENT AND A
DEFINITIVE AGREEMENT WITH ENBIO-LIFE BIOTECH
FOR THE TAIWAN MARKET**

TSX VENTURE EXCHANGE: AVI

FOR IMMEDIATE RELEASE

PRIVATE PLACEMENT

QUÉBEC – DECEMBER 19, 2006 - Advitech Inc. ("Advitech") (TSX Venture: AVI) today announced that a private placement in units had been closed with the Québec Stock Growth Plan Inc. (Natcan) and a group of private investors, including certain employees, management staff and directors of Advitech, for a total of \$ 515 800.

Under the terms of this placement, Advitech has issued 6 447 500 units at \$ 0.08 per unit. Each unit comprises one common share of Advitech and one warrant. Each warrant entitles its holder to purchase, at any time, within 24 months following the date the placement was closed, one common share of Advitech at \$ 0.15 per share. The amount subscribed by employees, management and directors is \$ 60 800 or 760 000 units.

Advitech has paid a fee of \$ 2 880 to National Bank Financial Inc. for its role in the conclusion of a portion of this private placement.

The product of this private placement will be used for working capital and the implementation of marketing activities for Advitech products.

In accordance with the policies of the TSX Venture Exchange, securities issued by Advitech are subject to a hold period prohibiting transfer of the securities for a period of four months from the closing of this private placement.

Discussions are under way by the Company as well with other partners to finalize, during the first half of 2007, its financing program announced in May 2006 at its Annual Meeting.

Definitive Distribution Agreement

Advitech also announced that a definitive agreement with ENBIO-LIFE BIOTECH and MEDICAL COMPANY (ENBIO) had been signed for the distribution of its "DERMYLEX™" product in Taiwan. This agreement follows a prior "agreement in principle" signed by Advitech and ENBIO on April 26, 2006. In accordance with the definitive agreement, ENBIO issued its first purchase order of Dermylex™, which was delivered in early December 2006. ENBIO will also start a clinical study on Dermylex™ in the first half of 2007. This clinical study will help prepare the introduction of Dermylex™ in other Asian markets such as Mainland China.
